

MYFUELS
For All Your Fire Fuel Needs

WHOLESALE WINTER PRODUCT CATALOGUE 2023/2024

COMPANY OVERVIEW

MyFuels (previously known as Bagnalls) provide a complete range of Winter and summer fuel products for wholesale and retail customers. We are an approved Fuel merchant and have gained Woodsure, FSC and REACH certifications.

We have our own onsite manufacturing plant producing VDA licensed AdBlue and Screen wash that we are very proud of.

We also own and operate our own Wood Briquette "HEATLOG" Operation and Firewood Processing plant meaning we can supply you direct from factory eliminating any middle man. All of our products are sourced from sustainable responsible sources.

Our main objectives are to provide our customers with a complete range of products aimed at the garage four court and wholesale sector. To provide our customers with a competitive price and quality product.

KILN DRIED TROPICAL LOGS STANDARD CRATE & JUMBO CRATE

Tropical Hardwoods from the Volta Dam In Ghana, unique Logs with a story to tell. These logs are reclaimed from underwater where they have been submerged under water since 1961. Once the timber has been salvaged and kiln dried the timber that could not be used is turned into firewood. We are the only distributor in the UK to offer this unique product.
Standard Crate Dimensions: 80 cm H x 107 cm W x 107 cm D
Volume: 0.9M3
Jumbo Crate Dimensions: 160 cm H x 107 cm W x 107 cm D
Volume: 1.85M3
SKU: TROPCRATEST
SKU: TROPCRATEJB

TIMBER SALVAGE AND PROCESSING OVERVIEW

Salvaging
Sonar scans and locates timber, cutting plan is generated based on desired diameters
During cutting, barge is held in place by propellers using GPS
Cycle time is 3 – 5 minutes, a boom raises the cut tree to the surface

Barging & Sorting
Barge extracts cut logs from the lake, trims them, and load them on floating "log trailers"
Limbs stored on deck and dropped back into the lake at pre-determined areas to create artificial reefs for fish habitat
Barge can support diving crew to cut oversize trees and support operations

Milling & Processing
Logs are sorted per species, and milled
Stacked boards are dried and prepared for delivery
Sawdust fuels boiler, offcuts converted to charcoal for which there is a ready local and export market

Finished Product
Operation's prior experience with marketing and sales has created a ready market
Finished products are exported or sold locally
Destinations include China, Europe and America
